# Why choose St Lucia?

---

St Lucia is one of the most beautiful islands in the Caribbean and caters perfectly for wealthy individuals and offshore businesses alike. Like much of the Caribbean, tourism is one of the largest industries as the island guarantees a breathtaking holiday experience and a genuinely welcoming local population. The infrastructure is highly developed, offering a complete range of accommodation, leisure and transport facilities reflecting the demands of commercial visitors as well as tourists.

- The island is politically very stable
- Robust and thriving economy with highly developed infrastructure
- US dollar is widely used, alongside the domestic East Caribbean dollar
- Freedom to choose a 1% tax rate or to be exempt
- Low government fees plus simple registration and administration
- Well-trained, affordable local workforce
- Maximum level of confidentiality and privacy
- Effective internal regulation of service providers

The regulations for all international financial services laws have been amended to allow for a single renewal date of January 1. For IBC's this is particularly attractive, as the quarterly pro-rataing should encourage re-domiciliation towards the end of the year rather than early in the following year, as has been the norm.
