Reliable professionals

Not all accountants are the same.

Any accountancy firm of a reasonable size should manage your finances so you have a clear understanding of your business's position and meet the obligations of HM Revenue & Customs or other government departments. However, it is the level of service and quality of advice that differentiates one firm from another. It pays to find professionals with the right skills. Our business is centred around people and personalities and it is this focus that is fundamental to the way in which Churchill operates, providing a professional but friendly service that is proactive, quick to respond and reliable.

Established in 1993, we are a completely independent firm of chartered accountants and business advisors. Our main offices are located in the West Country of England. Also we have associated companies in London, St Lucia, Anguilla, Bucharest, Prague and Moscow, together with long-term established relationships with trust companies and other bodies in jurisdictions all over the world.

Regulation by the Institute of Chartered Accountants in England and Wales means we are qualified experts operating within their Code of Conduct, are approved by banks and government institutions and are committed to keeping up with changes in legislation.

A principled approach.

People do business with people, not with firms or brand names, and it is crucial that relationships are easy and trusted. We focus upon giving you confidence that your financial affairs are in safe hands. To achieve this we take time to listen and learn, to know what is important to you and to gain a genuine and useful insight into your business.

Tony Shiffers is the founder and principal of Churchill LLP. Having qualified and trained for 15 years with KPMG in London, Tony brings personality, excellent business acumen and impressive experience of working on a portfolio of clients from sole trader start-ups to major plcs. He has travelled extensively; working and living in Poland, Iran, Qatar, Nigeria, Ghana and the British Virgin Islands.

Within our skilled staff of qualified accountants you'll meet many industry experts and individuals focused on different financial specialisations. As committed partners, we form a close team to work alongside you and provide strong, coherent day-to-day support plus the best possible professional advice for today and tomorrow.

We actively invite communication from you and all queries are answered promptly and efficiently in a language you understand. Churchill is genuinely interested in your success and we know that building a lasting relationship is critical to your business's development.
